

Training programme begins at NBSS-LUP

■ Staff Reporter

A 21-DAY training programme on 'Advances in Land Resource Inventory for Enhancing Productivity through Agro-Technology Transfer' commenced at National Bureau of Soil Survey and Land Use Planning (NBSS-LUP) here on Tuesday. The programme will conclude on February 23.

Dr A K Joshi, General Manager, Regional Remote Sensing Centre (RRSC) ISRO-Central, Nagpur, inaugurated the programme. Dr S K Singh, Director of the institute, presided over the function. In all, 27 trainee officers are attending the training programme. They are from various ICAR institutes, state agricultural universities, state departments, KVKs and organisations representing 10 states across the coun-

try. The purpose of the training programme is to highlight significance of land resource inventory for site-specific land resource management and agro-technology transfer, states a press release issued by NBSS-LUP. During the training programme, the participants will be exposed/trained to various modern tools and techniques used for land resource

inventory. The training course is more of practical oriented which will enable the trainee officers to learn modern tools and techniques and application in land resource inventory. The expertise acquired through this training programme will be very useful for various developmental schemes of the State and Central Governments.
